N.O. 1

## Ceremonies Name Maxcy & Buckman Halls

**CELEBRATIONS:** Mrs. Clarice L. Buckman, left, and Dr. Phillip Kaplan witness the unveiling of the name over the main entrance of the Jacob F. Buckman Hall of Engineering and Applied Science. At right, gathering for the naming of Ellis C. Maxcy Hall are: Maxcy, first director of the institution (1932-1937); Mrs. Lawrence L. Bethel, widow of the second man at the helm (1937-1954); Marvin K. Peterson, president from 1953 to 1973; and Dr. Kaplan, UNH president since 1973.

## BOG Names Four New Members

Four new members have been named to the University of New Haven Board of Governors. The four are: Jessie M. Godley Bradley, former assistant superintendent of New Haven Public Schools; Murray Gerber, president of Prototype & Plastic Mold Company, Inc.; Superior Court Justice Flemming Norcott, Jr.; and Francis A. Schneiders, president of Enthane, Inc.

Ms. Bradley, a New Haven resident, joined the city's public school system in 1956 as an elementary school teacher at Winchester Community School. She was named principal of the Horace Day School in 1967 and director of the city's elementary schools in 1973. She served as assistant superintendent of schools from 1977 to 1985. From 1958 through 1967, she taught at Southern Connecticut State University.

A graduate of Oakwood College in Huntsville, Alabama, with a bachelor's degree in English, she began her career in 1948 as a teacher in the New York City school system. Ms. Bradley earned a bachelor's and master's degree in elementary education at Southern Connecticut State University and a professional diploma and Ph.D. in supervision and administration at the University of Connecticut.

## Eminent Physicist Addresses Graduates

Describing the 1980s as "one of the most exciting and challenging times in the history of our race," Dr. D. Allan Bromley, commencement speaker at the University of New Haven ceremonies held on June 7, urged graduates of both technical and non-technical fields to "work together to face the staggering problems of the modern world" and realize the true potential of a bright future.

"The time is long past when we can afford to follow our narrow professional interests. Our future, and the future of our planet, depends upon our learning to work together effectively—and soon," he said.

*Continued on page 3*

## New Signs Unveiled At Spring Receptions

The university community celebrated the renaming of two of its major buildings at afternoon receptions on May 28 and June 4.

The School of Engineering Building is now the Jacob F. Buckman Hall of Engineering and Applied Science and the Main Administration Building is now Ellis C. Maxcy Hall.

Buckman Hall honors Jacob Finley Buckman (1896-1973), industrialist, philanthropist and civic leader. The renaming recognizes a continuation of the generosity and support of Mrs. Clarice L. Buckman to the University of New Haven and of her dedicated commitment to the memory of her late husband, a founder of Enthane, Inc.

Mrs. Buckman, one of UNH's most generous benefactors, established the university's first endowed chair, the Jacob Finley Buckman Professorship in Chemistry and Chemical Engineering in 1981 and in 1986 provided funds to establish Buckman Awards for Academic Excellence in Engineering. She recently made a \$500,000 major leadership contribution to the \$2 million UNH Fund for Engineering.

Speaking at the May 28 ceremonies, Francis A. Schneiders AS'54, Enthane president and chairman of the Fund for Engineering, commented on the similarities between Enthane and UNH.

"Both institutions were founded in New Haven and had very humble beginnings, the university on Prospect Street in a Yale University building and

## New BOG Members

*Continued from page 1*

The author of acclaimed publications and research papers and the recipient of many fellowships, grants and awards, Ms. Bradley is active on numerous civic as well as educational boards and committees.

Ms. Bradley is president of the Greater New Haven Council of Administrative Women in Education and chairman of the Superintendent's Task Force on the Emergency School Aide Act (ESAA). She is also a director of Colonial Bancorp/Bank of Boston Connecticut, The Volunteer Action Center of Greater New Haven, Junior Achievement of Southern Connecticut, the Shirley Frank Foundation and the Southern Connecticut Chapter of the American Red Cross.

*Gerber*, a West Hartford resident, founded Prototype & Plastic Mold Co., Inc. in the 1960s. The firm specializes in limited-life injection molds and short-run injection molding of plastic parts.

A graduate of M.I.T. with a bachelor's degree in mechanical engineering, Gerber earned a master of business administration degree from UNH in 1979. Active in the business community for the past two decades, he is chairman of the Connecticut Public Expenditure Council. He was a member of the Connecticut delegation to the White House Conference on Small Business in 1980 and was

chairman of the Second White House Conference in 1986.

Gerber is a director of the Connecticut Tooling and Machining Association, the smaller Business Association of New England and the Middlesex County Chamber of Commerce. He is also a member of the executive committee of the Connecticut Business & Industry Association and has served the CBA on numerous committees and conferences. He has served as a guest lecturer at professional workshops and has taught at the Waterbury State Technical College and the New York University graduate School of Management.

*Justice Norcott*, a New Haven resident, was named to the Superior Court in 1979. A graduate of The Taft School, he earned his bachelor's and law degrees at Columbia University. He began his career in the Peace Corps, serving on the law faculty at the University of East Africa in Nairobi, Kenya. Prior to his current position, he was on the legal staff of the Bedford Stuyvesant Restoration Corp. in New York City; the Office of the Attorney General, United States Virgin Islands; and the Center for Advocacy, Research & Planning, Inc. He was the first executive director, legal counsel and founder of the Center.

The recipient of numerous awards, he has served as hearing examiner for the Connecticut Commission on Human

Rights and Opportunities and as legal counsel to the Health Systems Agency of Southern Central Connecticut. He also has taught at the University of New Haven, Yale Law School and Yale University.

Justice Norcott is a trustee of Inner City School Scholarships, Inc. and the Youth at Risk Advisory Board. He is an associate fellow of Calhoun College at Yale and a member of New Haven Football Official's Association and the Walter Camp Foundation, among others.

*Schneiders*, an Orange resident, began his career at Enthone in 1950 as a research chemist and has served as a sales manager, general manager, vice president and executive vice president prior to his election as president in 1975.

A graduate of Lehigh University with a bachelor's degree in chemical engineering, Schneiders also holds an associate degree in electrical engineering from UNH and a master's degree in business administration from the University of Connecticut. He is a registered professional engineer in Connecticut, Illinois, New York, New Jersey and Florida.

Schneiders' numerous professional affiliations include past president of the Metal Finishing Suppliers' Association and service with the American Electroplater's Society and American Chemical Society. He is a member of the Manufacturers Association of New Haven County, a mem-

ber of the board of Junior Achievement of South Central Connecticut and is chairman of the \$2 million UNH Fund for Engineering.

All four appointments were effective July 1, 1987. ■

## SE Students Win Awards

Eight students at the University of New Haven in Southeastern Connecticut have received awards for academic achievement.

Winning top awards in their fields are: Eva Acuna, Norwich, business administration; Robert Applegate, Gales Ferry, mechanical engineering; Kenneth Boyden, Scotland, computer science software systems; James Henley, Gales Ferry, operations management; James M. Jancewicz, Norwich, industrial engineering; Susan Lawson, Essex, management science; Gregory Lane, Voluntown, electrical engineering; and Barbara Johnson, Pawcatuck, mechanical engineering.

The awards were presented at the annual UNH in Southeastern Connecticut banquet. Acuna, Applegate and Jancewicz received their bachelor of science degrees June 7 at the University of New Haven commencement exercises. Other winners received their degrees at the January commencement program. ■

**GRADUATION:** Dr. Allan Bromley (left), addressing the commencement exercises. Gathering for the traditional photo (center) are: Honorees Dr. Ernest L. Boyer; Dr. Bromley; Robert M. Gordon; Norman Botwinkik, chairman of the UNH Board of Govenors; Honoree Dr. Herbert Stein; and Dr. Phillip Kaplan, UNH president. Tomothy E. Whalen (right) wore his fire hat instead of the traditional

## June Commencement

*Continued from page 1*

"This is the year of the supers: of supercomputers, of supernovas, of superconductors, of supersymmetries and of the superconducting-supercollider, the largest device yet proposed by man—over 50 kilometers in diameter. All of these will impact your lives in ways that neither you nor I can even begin to imagine," Bromley said.

Bromley, the Henry Ford II Professor of Physics and director of the Wright Nuclear Structure Laboratory at Yale University, received an honorary doctor of humane letters degree in recognition of his distinguished career in science and education.

Three honorary doctor of laws degrees were also presented. Dr. Ernest L. Boyer, president of the Carnegie Foundation for the Advancement of Teaching, was cited for his distinguished contribution to higher education and for being an eloquent spokesman for higher education in America.

Dr. Herbert Stein, a senior fellow of the American Enterprise Institute in Washington, D. C., and member of the President's Council of Economic Advisors since 1969, serving as chairman under Presidents Nixon and Ford, was honored for his distinguished career as an economist and as a public servant.

Robert M. Gordon of Woodbridge, former president of Raybestos-Manhattan, Inc., now Raytek, received an honorary degree for his notable career as a modern industrialist and for his long-standing and dedicated service to the University of New Haven as a member of its board of governors.

Some 600 undergraduate and graduate degree candidates received their diplomas at the ceremonies held at the UNH North Campus. ■

### Intergenerational AIDS Conference Held at Dodds Hall

The University of New Haven's Division of Special Studies, together with the Society of Gerontology, sponsored a day-long conference on AIDS: AN INTERGENERATIONAL ISSUE, June 17, 1987 at Dodds Hall. Issues presented were the nature of the AIDS disease and its effect on the elderly as caretakers and as people facing the loss of loved ones.

The conference, featured discussions, lectures and the opportunity for questions. The keynote address was given by Dr. Alvin Novick, professor of biology at Yale University. Area leaders from academic, religious and state health service communities conducted sessions stressing different aspects of the situation. ■

## Dr. James Martin Named Dean of Student Affairs, Services

Dr. James E. Martin, J., of Mobile, Ala., has been named dean of student affairs and services at the University of New Haven. He comes to the university with nearly 20 years of administrative and student service experience.

He has been dean for students at Spring Hill College in Mobile since 1984 and prior to that served in administrative areas of student affairs at Virginia Intermont College, Bristol, Va., Baylor University, Waco, Texas; and Bowling Green State University, Bowling Green, Ohio.

Martin received his undergraduate degree at Western Carolina University and a master's and advanced degrees at the University of Virginia. He earned his Ph.D. at Bowling Green State University in educational administration and supervision/student personnel services. He began his career in 1968 in the Virginia Public School system, serving as a principal, guidance director and member of the elementary and junior high school faculty.

The author of several articles for educational journals, Martin is also an active member of numerous professional organizations including the National Association of Student Personnel Administrators, the Jesuit Association of Student Personnel Administrators and the International Association of College and University Housing Officers. He also has served as a director of the American Cancer Society among other positions with community and civic groups. ■

*Dr. James E. Martin*

August/September 1987 Vol. 10, No. 1

INSIGHT (ISSN 089-6314) is published bi-monthly except Oct/Nov. by the University of New Haven. Second Class postage paid at New Haven, Connecticut, publication number USPS 496-870. Postmaster: Please send Form 3579 to Public Relations Dept., University of New Haven, P.O. Box 9605, New Haven, CT 06535-9996

Enthon in the back rooms of Jack Buckman's auto body shop on Elm Street," Schneiders said.

"Over the years the two institutions grew, both in size and stature, and at the present time the graduates of the university are spread out to virtually all the nations of the world, while Enthon products similarly are sold in every industrial nation."

"The university has had a dramatic effect on Enthon's ability to compete in this worldwide environment," Schneiders continued. "Our records show that 15 of our present employees have degrees from the university and that over 23 of them participate in night school programs. Four of our five officers have degrees from the university," he added.

"Claire Buckman also has recognized this significant synergism between a company that her late husband founded and the product of the university. As many as 10 years ago she discussed her desire to implement Jack Buckman's dream—his concept of the ideal education of a person for the type of work required by Enthon. That person would have a technical degree and an understanding of business. Claire Buckman is helping make her husband's dream come true."

Speakers for the event also included Norman I. Botwinik, chairman of the Board of Governors; Dr. Phillip Kaplan, UNH president; and Dr. Konstantine Lambrakis, dean of the School of Engineering.

Maxcy Hall honors the university's first director and the only man in the institution's history to have served in that position and as instructor, member of the board of governors and chairman of the board. Maxcy came to New Haven in 1929 as an instructor in marketing at the then New Haven branch of Northeastern University. He became director of the then New Haven YMCA Junior College in 1932 and served in that capacity until 1937 when he joined the staff of Southern New England Telephone Company.

Continuing his support of what

was to become UNH while advancing to president of SNET, he served as a member of the UNH board from 1938 through 1986 and as chairman of the board from 1945 through 1950, during which time the university received accreditation by the New England Association of Colleges and Secondary Schools.

Calling Maxcy the "quintessential civic and community leader," Dr. Kaplan cited him for his major role in the formative years of the institution and his untiring "concern, insight and support" through the years.

Alfred W. Van Sinderen, retired SNET chairman of the board, featured speaker at the June 4 ceremonies, called Maxcy "a man of action and achievement who has contributed a great deal to the educational and economic betterment of Connecticut."

Describing Maxcy's "triple-headed achievements in the corporate, educational and economic arenas," Van Sinderen said Maxcy "set a leadership tone" at SNET, driven by those same community service values to which he dedicated himself here at UNH.

"Along with his interests in education and telephones, he also was committed to the state's economic development," Van Sinderen continued. "In 1960, Governor Ribicoff asked him to head a 25-member Connecticut Economic Planning and Development Committee, more commonly known as the Maxcy Committee, to draft a long-range program to stimulate the state's economic growth. Its product was known as the 'Maxcy Report' and it laid the groundwork for our recent progress in this area. Today, our economy is one of the healthiest in the nation."

Also paying tribute to Maxcy at the ceremonies were: Norman I. Botwinik, chairman of the UNH Board of Governors; Herbert H. Pearce, vice chairman of the BOG; and Roland M. Bixler, EMBA '78, BOG member. A portrait by Rudolph Zallinger of Ellis C. Maxcy was unveiled. The portrait will hang in the central staircase of Maxcy Hall. ■

## Dr. James Downey Named Dean of H/R & T School

Dr. James Downey of West Haven, Conn., has been named dean of the School of Hotel, Restaurant & Tourism Administration at the University of New Haven.

Dr. Downey joined the UNH staff in 1982 and has served as associate dean of the school. He was granted tenure in 1986 and, effective September 1, 1987, will be a full professor at the university.

He received his bachelor of science degree at Pennsylvania State University, his master's degree from the University of Wisconsin and his Ph.D. from Purdue University.

Prior to joining UNH, he held a management position with Laventhal & Horwath, certified public accountants, in Boston; was a director of Northeastern University's hotel/restaurant management program; and taught at Purdue University and the University of Wisconsin. In addition to his professorial experience, Dr. Downey was general manager at the Shenandoah Hotel in Shenandoah, Penn., and has

held various management positions in the hospitality industry over the past 15 years.

Dr. Downey is a member of the National Restaurant Association, the Foodservice Executives Association, the American Association of University Professors and the American Hotel, Motel Association. ■

## Sgt. Sheehan Tapped for State Office

Arthur P. Sheehan, a police sergeant with the University of New Haven, has been elected president of the New Haven County Detective Association.

Sheehan, installed May 27, is the first police officer from a university force to be elected president of the 400-member association.

Sheehan, who earned his bachelor of science degree from the University of New Haven in 1981, has been a member of the UNH police force for 17 years and this May received the Outstanding Staff Member Award from the university.

He is the recipient of numerous awards and commendations from the Department of the Treasury, Bureau of Alcohol, Tobacco &

Firearms; the Federal Bureau of Investigation; and the West Haven Department of Police Services as well as other citations from the University of New Haven and its Day Student Government. In January, he was the West Haven Lodge of Elks Law Enforcement Night honoree.

In addition to his UNH degree, Sheehan is a graduate of the Connecticut Police Academy and has completed numerous special certified training courses offered by the State of Connecticut and by the University of New Haven.

Sheehan and his wife, Donna Peterson Sheehan, have two daughters and live in West Haven. ■

# Co-op Initiates New "Alternative"

UNH Alternative, a \$75,500 innovative program for Greater New Haven high school students, has been initiated at the University of New Haven by the UNH Cooperative Education office.

The two-year program is designed to help students stay in school and to prepare them for work in a changing economy. Services will include assessment of student needs for a college

education, help with admissions and financial aid procedures, training for job-seeking skills and placement in summer and part-time jobs.

"Co-op programs are a proven education alternative for those students who want a degree, but who need financial support to obtain that degree," Cheryl Lison, UNH co-op director, commented. "The success of co-op at the college level warrants beginning the process in the high school years," she added.

"Stipulations for qualification include, most importantly, the desire to get ahead," Domingo Arias, coordinator of the program, said. "Students should also be college-oriented, in good academic standing and have leadership skills. The leadership element can be

demonstrated through participation in sports and community activities," he said.

UNH Alternative is supported by the entire UNH educational community including the academic schools—Arts & Sciences; Business; Engineering; Hotel, Restaurant & Tourism Administration; and Professional Studies—and the student services offices—admissions, financial aid and student affairs.

Parents, teachers and students are urged to seek further information on UNH Alternative, a pre-cooperative education program. Contact Arias at the UNH Gate House, Cooperative Education Office, 300 Orange Ave., West Haven, CT 06516, 932-7252. ■

**EXECUTIVE PROTECTION:** Participants in a three-day workshop co-sponsored by the Division of Special Studies and the fire science and criminal justice departments, discussed the importance of executive protection in today's society. Pictured here are, left to right, Jack McCarthy, F.B.I. supervisor; Fred Mercilliot, UNH director of fire science; Edward Reilly, a lieutenant in the Fairfield Police Department; Robert Comers, a captain in the Fairfield Department; and David Maxwell, director of the UNH security management program.

The next time someone asks about college, tell them about UNH! Our admissions counselors have resource materials to help you. Just write or call them. UNH, 300 Orange Ave., West Haven, CT 06516 (203) 932-7319.

# A ROUND CAMPUS

*This information was written by the staff of the Public Relations Department.*

## Provost's Office

"Optimized production technology (OPT) offers real, and perhaps ideal, production control advantages," Dr. Alexis Sommers, UNH provost, told an audience at the recent World Productivity Forum in Washington, D. C.

Speaking at an education session on key trends, Dr. Sommers said the OPT theory, a brainchild of Dr. Eliyahu Goldratt, "establishes a set of principles based upon complex logic and years of careful observation. OPT introduces the concept of a production-controlling bottleneck, or capacity-constrained resource, which determines plant throughput, work-in-process inventory and the utilization of non-bottleneck equipment and manpower. OPT schedules appear to converge on optimum solution points," he said.

Sommers' paper, delivered during a management session, was entitled "Assessment of Optimized Production Technology (OPT) Policy Rules in Large Product Networks." He also is a professor of industrial engineering at UNH.

In OPT, "idle time can be used for quality control purposes, machine maintenance, training, setups and factory housekeeping," Sommers commented, quoting Goldratt who organized a firm called Creative Output, Inc., to promote and produce his software for OPT.

"Declining U.S. and European productivity which allowed major market penetrations by Japanese and other Asian manufacturers . . ." forced an unprecedented look at production scheduling, he said, adding that production scheduling may be unglamorous, but is a vital component of manufacturing systems.

"If nothing else," he concluded, "OPT's underlying theory of scheduling is a theoretical advance of considerable value at the shop floor level and will probably return dividends to any plant wedded to traditional job shop scheduling practices."

• • •

Dr. James Uebelacker, UNH associate provost, delivering a paper at the Connecticut PTA convention in May, urged the audience to give serious consideration to mathematics as part of everyday life and problem solving.

"We must continually press to strengthen teacher preparation programs so that they are not serving to perpetuate society's misconceptions about mathematics," he said. "Look at the type and quality and orientation of the mathematics in the program, not just the amount," he added.

"As parents, we should show more interest in our children's schoolwork. We should try for ourselves to identify the use of mathematics and to think mathematically in everyday life; not just the obvious examples, say of maintaining a family budget, financing a car or shopping. A road map, for example, is a mathematical object, what we call a model. Monitoring your car's efficiency through calculating its MPG, planning a schedule, or devising a pattern for cutting the grass so that the electric mower cord won't be cut are other examples. We should try to understand for ourselves and imbue our children with the pervasive role and use of mathematics in life."

The talk was entitled "Aftermath: Is Literacy or Anxiety the Product of Our Mathematics Instruction?" Uebelacker also is a professor of mathematics. ■

## School of Arts & Sciences

The University of New Haven political science department has designed a new graduate-level certificate in legal studies to begin this fall.

The five-course program is intended to introduce non-lawyers to all of the levels at which legal disputes arise and are resolved. Course work will explore the roots of political conflicts and processes related to law-making and adjudication.

For further information, contact Dr. James Dull, chairman, Department of Political Science, (203) 932-7247.

•••

Three graduates of the University of New Haven industrial and organizational psychology program returned to the university Sunday, June 14, to discuss "Careers in I/O Psychology" at the Fifth Annual Spring Colloquium.

Panel members for the discussion were Dennis McGough MA'81, director of development programs in the Water Products and Service Division of Olin Corporation; Wilbur Pike MA'82, founder of Change Design, a consulting firm; and Robin Kennedy MA'84, a quality assurance supervisor at Contel.

The I/O colloquium was held at Arbeiter Maenner Chor on the main UNH campus.

•••

**David E. E. Sloane**, a UNH English professor, was among ten internationally known scholars featured at the 1987 Mark Twain/Harriet Beecher Stowe Teacher Institute in Hartford in July.

Sloane, author of *Mark Twain as a Literary Comedian*, shared his expertise on Twain with 30 Connecticut secondary school teachers. The Institute is designed to explore how the writings of Twain and Stowe can be integrated into high school curricula to help strengthen students' reading, writing and analytical skills.

The Twain/Stowe Teacher Institute was held at the Mark Twain/Harriet Beecher Stowe Houses July 13-24.

•••

**Dr. Joel Marks**, assistant professor of philosophy, presented a paper entitled "When Is a Fallacy Not a Fallacy?" at the spring four-day conference on critical thinking at Christopher Newport College in Newport News, Va.

•••

Ingrid Palmer, a graduate student in the gerontology program, was invited to present her paper "Evaluation of the Impact of Project Touch" at the Northeast Gerontological Society's annual conference in May. Project Touch is a series of intergenerational workshops designed to benefit kindergarten children at Barnard Elementary School and the elderly at the New Haven Convalescent Center.

•••

**Dr. Paul Marx**, English professor and chairman of the department, and one of his former students, Chris Patsilelis BA'70, both had book reviews published in the *Hartford Courant* on May 20.

Dr. Marx reviewed the Knopf publication *A Sport of Nature* by Nadine Gordimer. Patsilelis, a free-lance writer who lives in Bridgeport, reviewed *Shinano! The Sinking of Japan's Secret Supership* by Capt. Joseph P. Enright with James W. Ryan, a St. Martin's Press publication. ■

## School of Business

The UNH forensic science program in cooperation with the Northeastern Association of Forensic Scientists, sponsored a week-long course and workshop on Forensic Serological Applications of Isoelectric Focusing at the university in May.

Isoelectric focusing is a newer technique for the analysis of

dried bloodstains and enables crime laboratories to associate the bloodstains (and body fluid stains and residues) with individuals to a greater extent than has been possible in the past.

Dr. G.B. Divall, head of biochemistry at the Metropolitan Police Forensic Science Laboratory in London, England, was the principal instructor for the workshop. Dr. Divall has been a major force in the development of isoelectric focusing procedures in forensic science and is an internationally known authority in the field. He was able to share the methodologies developed in the MPFSL over the past several years with the 20 forensic scientists attending from various laboratories in the U.S.

Forensic scientists from as far away as Los Angeles, as well as a number from neighboring New England states, were on campus for the workshop. A number of alumni of UNH's forensic science program who are currently employed as crime laboratory examiners returned to the campus to attend the course.

•••

Professor Craig Parker and the UNH public management department offered the annual two-week Justice Seminar in London, England again this June. It was the sixth year that the course was offered to students and working professionals with specialties in corrections, law enforcement and the probation field. In the past, participants in the course have come from all over the United States including Kentucky, Arizona, Maryland, Ohio, Michigan and New Jersey as well as Connecticut.

This year the group visited the Kent Police Constabulary, the Scotland Yard Forensic Laboratory, Juvenile Court, the Hampshire Police Constabulary, Magistrates Court, the Middlesex Probation Office and the Central Criminal Court in London, better known as the Old Bailey.

•••

**Dr. Steven A. Raucher**, chairman of the communication department, reports this year's Media Day in May was a huge success. Included among the plaudits the event received was a letter from C. Planinshek, a journalism teacher at Joseph A. Foran High School which read, in part: "My students found your 11th Annual Media Day both informative and enjoyable." ■

## School of Engineering

Six UNH engineering students have been selected for Jacob F. Buckman Engineering Awards for academic achievement by the UNH engineering faculty.

The awards, presented following the June 7 commencement exercises, were established by Mrs. Clarice L. Buckman, a friend and benefactor of the school, in honor of her late husband, Jacob Finley Buckman, a founder of Enthon, Inc., of West Haven.

Recipients included: Mary Mason of Wallingford, chemical engineering; Mark Hall of Old Lyme, mechanical engineering; David M. Sembante of Derby, industrial engineering; James M. Cunningham of Milford, chemical engineering; Lisa Blanchard of Northford, electrical engineering; and Mohammed Ali Belo of East Haven, civil engineering.

•••

Faculty and students from northeastern United States colleges and high schools attended a Computer-Aided Engineering Workshop at the University of New Haven, Thursday, May 21.

Representatives of Prime Computer, Inc. of Natick, Mass., joined UNH faculty as discussion leaders and demonstrators. Prime recently made a \$358,000 equipment grant to support the University of New Haven's new Center for Computer-Aided Engineering.

Workshop participants were introduced to state-of-the-art technology in CAD/CAM (computer-aided design/computer-aided manufacturing) as well as other computer programs and techniques for civil, mechanical, electrical and industrial engineering applications.

The University of New Haven is currently planning a \$2 million Fund for Engineering to provide additions and improvements to the UNH School of Engineering laboratories, to increase computer capabilities throughout the curriculum and to establish a Dean's Endowment for merit and minority scholarships. ■

## School of Hotel, Restaurant & Tourism Administration

Beginning Fall 1987, the Department of Tourism and Travel Administration will offer an M.B.A. concentration in the school. Qualified candidates can expect to gain valuable educational background for careers in travel administration at the corporate level. For more information, contact Dr. Elisabeth van Dyke, Chairperson at (203) 932-7362.

The school has once again been awarded a State of Connecticut tuition credit grant for transfer students from either Manchester or Mattatuck Community Colleges. Students will be given a fifty-percent credit toward tuition providing they maintain full-time status at UNH, are Connecticut residents and have graduated from the aforementioned colleges after June 1986.

**Dean James F. Downey** has been appointed for a three-year term as a member of the Governors Tourism Council. This group serves as a tourism clearing house on programs and events that affect the State of Connecticut. Recommendations and decisions that refer to state policy on tourism are considered by the council with full reporting procedures to the Governor.

The School of Hotel, Restaurant & Tourism Administration has recently appointed **Thomas Noble** as an Assistant Professor in the Department of Tourism and Travel. Noble was formerly the director of Educational Grants for the Naugatuck Board of Education and President of Travel Depot, Inc., a travel agency. He received his master's and bachelor's degrees from Southern Connecticut State University and is a member of the American Society of Travel Agents, Association of Retail Travel Agents and the Society of Travel and Tourism Educators, Inc. Noble will be teaching courses in travel marketing, and tourism planning and development beginning Fall 1987.

**Dr. Angelo Bentivegna** has been appointed co-chairman of the Connecticut Hotel and Motel Association's educational committee. Dr. Bentivegna will represent the School's interests toward providing the lodging industry with educational support programs throughout the state. ■

## School of Professional Studies & Continuing Education

The University of New Haven fire science department conducted a two-day Hazardous Materials Spill and Leak Workshop July 25 and 26 at Old Mystic's Fire Station No. 1.

The workshop was designed to prepare participants to identify hazardous materials, predict and analyze potential problems and gain knowledge of control measures to mitigate incidents.

• • •

Gifted students from high schools throughout Connecticut spent three weeks at UNH in July for a "Science in Summer" program. The program was directed by Prof. Arthur J. Repak of Quinnipiac College and supported by Boehringer-Ingelheim Pharmaceuticals, Miles Pharmaceuticals, Uniroyal, Pfizer and Sigma Xi, the scientific research society.

"Science in Summer" is an enrichment program for academically gifted junior and senior high school students interested in research in the sciences. The program has state approval and is offered in cooperation with the UNH Foundation.

WORKSHOP: Representatives from Prime Computer, Inc. of Natick, Mass., joined UNH staff at a workshop in the Computer-Aided Engineering Center in May. William Adams, left, of the industrial engineering department explains the computer-controlled robot program.

PRESENTATION: Olin Corporation makes a yearly contribution to support the UNH occupational safety & health program. Pictured here for the presentation are, from left: Dr. Ralf Carriuolo, dean of the School of Professional Studies & Continuing Education; Dr. Brad Garber, director of the department of professional studies; James Dawson, MBA '78, MS'85 director of the environmental hygiene and toxicology laboratory; and Leonard Krause, director of environmental hygiene and

DEDICATION: His team and the media line up to congratulate Frank (Porky) Vieira, center, on the naming of the baseball field in his honor.

Continued from page 7.

As part of a growing cooperation between the town of Groton and UNH in Southeastern Connecticut, the two linked their bibliographic research capabilities via computers in June. UNH's bibliographic computer search data base, OCLC, is now offered for Groton Public Library cardholders and all UNH staff, faculty and students at the Groton Public Library and provides automatic location and interlibrary loan capabilities. Groton's library computer search base, DIALOG, is also available to the UNH community through the in-resident UNH librarian at Groton Public Library, Catherine Phinizy. ■

## Cooperative Education

Domingo Arias has been named to the staff of the Cooperative Education Department as co-op coordinator for the School of Professional Studies. He has also been assigned to develop a community outreach program with the New Haven Chamber of Commerce Jobs Compact consortium.

Arias comes to UNH from a position as employment services manager for Goodwill Industries of Western Connecticut where he founded the Employment Network for Hispanics. He currently serves on the board of directors of the Connecticut Association for United Spanish Action (CAUSA) and has been involved in Bridgeport's Project with Industry and Infoline in Norwalk.

A graduate with a master's degree from the University of Chile, he is the 1986 recipient of outstanding service awards from the Connecticut Council of Vocational Education and from the Secretary of Education for his role in bilingual vocational education. ■

## Student Services

Laurie Saunders, director of undergraduate admissions and Elizabeth Critchley, assistant director of admissions, served on the planning committee for the 16th annual meeting of the New England Association of College Admissions Counselors held at the University of Rhode Island in May.

In addition to participating as part of the registration committee, Saunders was the panel moderator for a workshop session entitled "NCAA Regulations and Counseling the Prospective Athlete." Critchley, a member of the publicity committee, moderated a panel discussion on the background of the 1986 Higher Education Amendments and their impact on the financial aid process.

•••

UNH served as the host for the annual meeting of the New England Consortium of Black Admissions Counselors (NECBAC) held June 7-9. NECBAC is an organization of minority admissions representatives or related administrators affiliated with private colleges and universities who have joined together in an effort to improve minority enrollment and retention at their respective institutions.

Approximately 20 professionals attended a variety of business and committee meetings, presentations and discussion sessions.

As chair of the NECBAC human relations committee, Lesa Loritts of the admissions office recently provided the leadership to implement a new program for 10 high school guidance counselors from under-represented areas throughout New England. The program allows selected counselors to attend NECBAC's annual meeting as guests of the association. This new opportunity will help stimulate improved contact between college and university admissions counselors and high school counselors from public, rural or urban secondary schools. ■

## Alumni Council Recognizes Volunteer Efforts, Activities

The UNH Alumni Council gathered for its annual dinner on Thursday, May 21, 1987. Members and their guests enjoyed a reception in the National Art Museum of Sports (Dodds Hall) from 5:30 - 6:45pm. The dinner meeting, chaired by Alumni Association President Tom Dubno BS'68, MPA'75, began at 7 p.m. in the Student Center Lounge.

Items on the meeting agenda included remarks on new developments at the university by President Phillip Kaplan. Alumni reports were submitted from 1986-87 chairmen for homecoming, phonathon, distinguished alumnus selection and the scholarship ball.

Alumni recognized for their efforts in relation to the 1987 Scholarship Ball included: Sheila Carnam BS'83 (decorations); Steven Grasso BS'79, MPA'84 (tables); Julie Gelgaua BA'76 (advancement & table signs); Kathy Leigh Russo BS'77, MBA'85 (program and invitations); Steven Klemenz, BS'78 (band selection) and Leonard Murzin MS'81 (accounting).

Certificates of appreciation were awarded to: Geoffrey Ramsey BS'82 (chairman, 1986 homecoming); Robert Barrington BS'71, MPA'77 (chairman, 1986-87 phonathons); Kathy-Leigh Russo BS'77, MBA'85 (chairman, alumni public relations); Richard Mason MBA'73, (chairman, 1984-87 distinguished alumnus selection committee); Joseph Cieplak BS'72 and Mary Hart BS'75, (co-chairmen, 1987 scholarship ball) and Richard Bassett BS'81, MS'83, (chairman, 1986 tag sale).

Special thanks and UNH pins were presented to Martin Platt BS'75, MBA'80 and Giangarlo Accettullo BS'77 for organizing Alumni Hockey Night in December 1986.

New alumni committee chairmen for 1987-88 were

announced and included: Martin Platt BS'75, MBA'80 (homecoming); Leonard Murzin MS'81 (phonathons); John Beckert MBA'72 (1988 distinguished alumnus selection); Steven Grasso BS'79, MPA'84 and Giangarlo Accettullo BS'77, (1988 scholarship ball); Mary Hart, BS'75 (public relations) and Geoffrey Ramsey BS'82, (alumni activities).

New council members in attendance, Kenneth Cruz BS'75 and Ronald Manning MPA'78, were introduced.

The meeting concluded with a talk from Cheryl Lison UNH co-op director. Ms. Lison discussed the receipt of recent federal grant monies for co-op expansion, what program expansion has included and how alumni can become involved.

The meeting adjourned at 9:30 p.m.

Any alumni interested in joining the Alumni Council should contact Pat Morgan at 932-7270. ■

## Professional Conducts Estate Planning Seminar

The Development/Alumni Office sponsored an Estate Planning Seminar for alumni and friends of UNH on Wednesday and Thursday, April 22 & 23, 1987.

Professional estate planning counselor Terry D. Mayo, explained the importance of keeping an estate plan up-to-date. The implications of the Tax Reform Act of 1986, particularly as they pertain to estate taxes, were reviewed and concepts that attendees should discuss with their personal professional advisers were explained.

Topics considered were wills and their update and revision, choosing an executor, the marital deduction, jointly owned property, the probate process, ways to transfer assets, the use of trusts in estate planning, and gift, federal and state taxes.

In addition to the informal lecture and discussions, participants received a

worksheet and information packet which will provide assistance as they proceed with future plans.

The next estate planning seminar is scheduled for Wednesday and Thursday, April 20 and 21, 1988.

Anyone interested in being included on the invitation list should contact Pat Morgan in the Alumni Office at 932-7270. ■

## NOTES

### 1938

William J. Heinrichs has been the town clerk of Orange, Conn. for the past three years. He was awarded the designation of "Certified Connecticut Town Clerk." This certification is achieved through a formal program involving several years of schooling in the laws which govern the town clerk's office and by successful completion of a comprehensive test.

He retired from the Bell System in 1973 after 37 years of service.

### 1966

Michael J. Iaccarino is the president and chief executive officer of the Shoreline Bank and Trust Co. in Madison, Conn. He has been an executive vice president

with the former Orange National Bank, senior vice president with the former Community Banking Company and first vice president with Connecticut Bank and Trust Company.

He lives in Orange with his wife, Helen, and their two children.

### 1968

Hank Ivan has coached for the Wallingford, Conn. softball league for 27 consecutive years. He manages the Cassello Real Estate "D" Division Team. He works as the customer service coordinator for the town electric division and was born, raised and still lives in Wallingford.

1969

Robert Dombroski

**Robert Dombroski** has been named corporate credit manager of Howe Furniture Corporation, Trumbull, Conn. He will be responsible for credit approval of all orders, releasing shipments, managing receivables and supervising billing procedures and cash application. He lives in Wallingford, Conn.

**Ronald J. Rodowicz** received the GTE Government Systems technical achievement award for design, development and test of the command, control and communication (C3) system for the Peacekeeper, formerly called MX, defense program. Peacekeeper, a key strategic program for the U.S. Department of Defense, is a land-based intercontinental ballistic missile (ICBM) system. The award was presented at ceremonies held May 7, 1987 in Norwalk, Conn. He is the Peacekeeper engineering department manager of Westborough, Mass.

1970

**John Eadevito** is president of Professional Events Productions in Wallingford, Conn. a single source events management group which will produce and manage events for commercial and industrial clients, trade associations and foundations.

**Gourdin E. Sirles** has joined the Cover Temp Companies as executive vice president of the White Plains, New York-based personnel company. He will be responsible for the accounting operations of all the Gateway Careers, and Word Pro/PC Centers. Mr. Sirles was the division marketing manager for AT&T Communications from which he retired after a career of 31 years. He now lives in Ridgewood, New Jersey.

1972

**Walter Trzcienski**, chief of police for the Seymour Police Department in Seymour, Conn. is stepping down after 36 years of service. He recalls his earliest days as a police officer as being the happiest. He is the proud grandfather of 5 grandchildren. Some of his post-retirement plans might include some teaching. He also enjoys painting for relaxation.

1973

**Thomas E. Mansfield**, economic development coordinator for the City of West Haven, Conn. is part of the "Can Do Team" of Select Greater New Haven. The "Can Do Team" is designed as a resource for companies whatever their business needs (financing, site location, transportation, start-up labor, etc.) to utilize through the Chamber of Commerce. He is currently pursuing his masters in public administration at UNH and lives in West Haven with his wife, Madelyne.

**Charles Park** has been named regional manager for Banfi Vintners. He will direct the company's sales in the states of Connecticut, Rhode Island, and New Jersey for Riunite and Banfi products.

He joined the company in 1978 as Connecticut sales manager. Before that, he was a member of the Hartford police force for 6 years during which time he was awarded the department's Distinguished Service Medal and Merit Award. He served with the U.S. Marine Corps in Vietnam and with the Connecticut National Guard from 1973 to 1978. He lives with his wife, Joanne, and their 3 children in Chester, Conn.

1974

**Paul J. Egri, Jr.** is the plant engineer at Pfizer, Inc. in Groton, Conn. He joined Pfizer in 1970 as the plant services engineer and has served as senior maintenance engineer and gained his current status as maintenance manager in 1977. In addition to his MBA from UNH he holds a BS degree in mechanical engineering from the University of Hartford in Hartford, Conn.

**Gary Ostapeck** a stock broker with Merrill Lynch in

Riverside, Calif., for more than 10 years is now assistant vice president. He and his wife, Kathleen, have one son, David, and live in Chino, Calif.

1976

**Charles A. Adonizio III** has joined forces with competitor and one-time schoolmate Frank Costellino to form Costellino and Adonizio, Insurance. Their new office is at 1550 Highway 315 in plains Township, Penn. The combined talents of Charles' marketing and Frank's accounting background will bring new ideas and efficiency to the agency and better service to the customer. Charlie is also a part-time real estate agent and lives in Keystone Plains, Penn.

1977

**Robert V. Casey** has been named "Policeman of the Year" in the West Hartford Police Department. He joined the force in 1967, was promoted to detective in 1979. During his police career he has been commended several times for excellent investigatory work and in 1986 received the Police Merit Award. He served in the U.S. Navy for 3 years and is an officer in the police union. He lives in West Hartford, Conn.

**Robert Reinhold** has been named general chairman of the upcoming Branford United Way Fund Drive which will begin in October 1987. He is a salesman with Mantek Corporation, and lives in Branford, Conn.

1978

**Stephen Croncota** joined the professional staff of the real estate firm of William Pitt, Inc. in Darien, Conn. He was in sales and marketing management with Xerox Corporation for 25 years and is a member of the Darien Board of Realtors.

**Thomas Sabellico** is the new youth service director in Naugatuck, Conn. He was the director of the Teen Center for the city of New Haven, and supervisor of interns and coordinator of outreach projects at Fairfield Community services. As the new director of Youth Services, he plans a theatre project in which teenagers act out skits about issues such as teen suicide and alcoholism in the family.

1979

**Fred Bove** is research analyst for the firm of Bronson & Hutensky in Hartford, Conn. A former detective for the Hartford Police Force, he now finds properties, contacts cities or towns to identify ownership, and then coordinates the demographic data.

**Gail T. DiMaggio**, business manager for the Norwich Department of Public Utilities, has been elected Norwich Chapter president of the National Association of Accountants. She is an active member of various governmental finance, gas and power associations, and lives in Norwich, Conn.

**Frank E. Hall** was appointed executive vice president, operations, at Mathog and Moniello, Inc. a New Haven-based risk management firm. Previously, Hall was with IBM Corporation, most recently as manager of staff services for the Milford, Conn. operations. He lives in Norwalk, Conn.

**Robert C. Miller** has been named chairman of Expo Middlesex '87 which is sponsored by the Middlesex, Conn. Country Chamber of Commerce. He is president of Bonded Technology, Inc. a Cromwell-based firm that is a leading manufacturer of composite structures for the aerospace industry. In addition to being on the board of directors of the Middlesex County chamber, he is finishing a two-year term as chairman of the Cromwell Division. He holds a bachelor's degree in mechanical engineering from the University of Hartford and an MBA from UNH. He lives with his family in Madison, Conn.

**Don Murelli** has joined the advertising staff of the Register Citizen in Torrington, Conn. He has more than 5 years experience in the advertising field, having worked for the Litchfield Enquirer and the Litchfield County Times. He lives with his wife, Michelle, and their two children in Torrington, Conn.

1980

**Conrad E. Fongemie** has been promoted to detective in the West Hartford Police Department in West Hartford, Conn. He is an 18-year veteran of the department, starting in 1969 as a patrolman. He was awarded the

West Hartford Police Department Merit Award in 1982 for outstanding service to the town and the department. He lives with his wife, Angela, and their two sons in Farmington, Conn.

**Michael W. Gozzo** spoke on May 19, 1987, at the dinner meeting of the American Production and Inventory Control Society in Groton, Conn., on "How to get Started with Just-in-Time", a workshop demonstrating a material requirements system on a personal computer. He is the co-founder and executive vice president of Professionals for Technology Associates, Inc., a company specializing in educating all levels of management.

1981

**Deborah K. Kichar** has been promoted to account supervisor for G:T Recruitment Advertising, a division of Griffin: Thomas Marketing Group of West Haven, Conn. She will be supervising account executives in all aspects of account service. Among her responsibilities are sales development and sales presentations, guidance and support to account executives, market research and analysis and media buying. She lives in Bethany, Conn.

**Sue Nolan** recently received her customs house broker's license. The license is granted by the United States Treasury department and allows one to represent importers into the United States. She lives in Seymour, Conn.

1982

**Valerie Johnson Beavers** was recently selected as deputy director of the Department of Social Services for the city of Englewood, New Jersey. She lives in Hackensack, N.J., with her husband, William.

**Anne Huben-Kearney** has been named nursing director of quality assurance and special projects in the nursing department of New Britain General Hospital, New Britain, Conn. She was formerly associate director for surgical nursing services at the Hospital of St. Raphael in New Haven, Conn. She is a member of the American Nurses Association, Connecticut Nurses Association,

Connecticut Organization of Nurse Executives, and Sigma Theta Tau, the national nursing honor society. She is also a clinical instructor on the courtesy faculty at Yale University School of Nursing in New Haven, Conn.

**Ann Loin** is municipal treasurer for the city of Milford, Conn. She handles everything from daily check flow to monthly balance sheets to investments. A New Haven native, she comes to Milford from the Knights of Columbus where she was the Treasurer. She earned a bachelor of science degree in economics from Southern Connecticut State College in 1975 and an MBA in finance from UNH.
